hi.

when rendering a menu like

- product
 - category1
 - category2

the second level menu (category2) is missing a surrounding ul tag.

Recommendation

i assume this is a bug which can be fixed by modifying

```
{% block listList %}
{% spaceless %}
  {% if item.hasChildren and options.depth is not sameas(0) and item.displayChildren %}
    {{ block('children') }}
  {% endif %}
{% endspaceless %}
{% endblock listList %}
```

to

```
{% block listList %}
{% spaceless %}
  {% if item.hasChildren and options.depth is not sameas(0) and item.displayChildren %}
    <ul{{ _self.attributes(listAttributes) }}>
      {{ block('children') }}
    </ul>
  {% endif %}
{% endspaceless %}
{% endblock listList %}
```
