Issues

Action attribute in html5

opened 14 days ago

<form method="POST" action="">

vs.

<form method="POST">

Issues

DateTimeToLocalizedStringTransformer wrong transform and reverseTransform

opened 14 days ago

Closed

Solution: I have libicudatabase 52.1 on my server that was installed by libicu52 as dependency of php-intl extension. So that's the reason.

Issues

delete_empty & checkbox

opened 27 days ago

Without checkbox on subform all works fine. But Symfony allways convert checkbox data to true/false and ResizeFormListener don't delete empty row.

Issues

Traversal cannot be disabled with XML

opened 28 days ago

Currently, the following constraint is ignored:

```
<constraint name="Traverse">false</constraint>
```

The value "false" is interpreted as string, not as boolean,

hence traversal cannot be disabled.
