TASK #60690

Remove and simplify code tagged by

HORRIBLE_OBSOLETE_YIELDMUTEX_IMPL

Process

- Part 1:
  - Remove useless body of GtkYieldMutex methods
  - Add some error messages
- Part 2
  - Trasform GtkHookedYieldMutex to GtkYieldMutex
- Part 3
  - Remove GtkYieldMutex and all calling

Summarizes

- My task was successfully done

- Code

  - 56 lines of code added

  - 268 lines of code removed

Experience

- Don't forget to ask

- Community of OSProgrammes

- Communication is without problem

- Removing code is much more easy then add new

Thanks for your attention
