↑	Get Notified	Get Notified	Details
↑	Get Notified is a simple to use notification plugin that notifies you of certain WordPress events.	Get Notified Je jednoducho použiteľný notifikačný plugin ktorý Vás upozorní na rôzne WordPressové udalosti.	Details

Get Notified helps users know when certain events happen on their site. For now, the plugin simply sends a notification message to a Slack channel when a new post is published on your site.

Get Notified pomáha upozorniť užívateľa, kedy a ktoré udalosti sa na jeho stránke odohrali. Momentálne plugin funguje tak, že akonáhle sa na stránke objaví nový príspevok, plugin jednoducho pošle notifikačnú správu do Slack kanálu.
