Figure : Datepicker component - "branch" version

Development

- Hosted on Github
- Active development
 - Developers **153**
 - Active since **10/2012** (1st commit)
 - **10** commits last month
- Communication via Github issue system

My contribution

- Extend usability of datepicker component
- Currently not fully accessible, my task is to fix it
 - Add missing labels
 - Add *ARIA markup*
 - Extend keyboard shortcuts
 - Improve date picking process
 - See my discussion for more details - <https://github.com/angular-ui/bootstrap/issues/2249>

Figure : Currently suggested improved versions by PhilipHoyt
(<https://github.com/PhilipHoyt>)
