# Block selection

- Kate editor  
CTRL + SHIFT + B (Block selection mode)
- My work  
ALT + SHIFT + arrows

# Bugtracking system

- [www.bugs.kde.org](http://www.bugs.kde.org)

The screenshot shows the KDE Bugtracking System interface. At the top, there is a navigation bar with links for Home, New, Browse, Search, Advanced Search, and Reports. Below this is a search bar with a search button and a notification icon. To the right of the search bar are links for Requests, Help, New Account, Log in, and Forgot Password. The main content area displays a message: "This bug is not in your last search results." Below this is the title "Bug 340778 - Allow using Alt + Shift + arrows for block selection in Kate" and its status "UNCONFIRMED". The bug details are organized into two columns. The left column lists: Product: kate, Component: general, Version: unspecified, Platform: unspecified Linux, Importance: NOR wishlist (vote), Target Milestone: ---, Assigned To: KWrite Developers, URL, Keywords, Depends on, and Blocks. The right column lists: Reported: 2014-11-09 02:46 UTC by Shmerl, Modified: 2014-11-09 02:46 UTC (History), and CC List: 0 users. Below the CC list is an empty box with a scrollbar. At the bottom right, there are links for "See Also:", "Latest Commit:", and "Version Fixed In:". At the bottom left, there is a link "Show dependency tree /graph".
