About Password Safe

- Powerful password manager for Windows
- Written in C/C++
- AutoType feature
- YubiKey support
- Ports for iOS and Android available

History

- Hosted on SourceForge
- First open source release in 2002
- Development slowed in 2012
- Currently
 - cca. 60 commits per month
 - 3 main contributors (w/o translators)
- Translation separated from the code

My Contribution

- Add missing Czech app translations
- Create Czech translation of the app installer
- Solve encoding problems

Thank you for your attention.
