Tomdroid

Simple note-taking.

Michal Cerman
cermam14@fel.cvut.cz

About Tomdroid

- note-taking app for Android
- equivalent to desktop app Tomboy
- using wikiwiki approach, online sync
- available on Google play

Development of Tomdroid

- started on 9/30/2008
- code hosted on

- 53 developers, 4 maintainers
- 3 commits last month, 4 commits this month

My contribution

- translate app to Czech language
- fix the bug in app:

when saving the note, & is rewritten to &
