Hey @turcapat thanks for the PR!

Do you think you could resize the hoodie logo so it's around 200-300 px wide? Since we're only showing it at 100px wide that'd account for high density screens (2-3x) and reduce the file size overall.

@turcapat sorry I wasn't very clear, the image can have a width of 100px in the site but the actual file should be 200px wide.

You'll see it live next time we deploy the site.
