

VLC Player

Ticket #7699

telnet interface functions extension

What is VLC

- Open-source multimedia player with many features
- Portable to almost all platforms
- Integrated codecs – it play everything
- Started 1996 as academic project for streaming video across campus network
- Client and server in one program

Code base info

- Git for code with patches through mailing list
- C/C++
- Lua

Communication

- Mailing list
- IRC channel on www.freenote.com #vlc-contribute
- Bugtracker

My contribution

- Telnet terminal x RC terminal
- Current playlist options
- Delete, move commands
- Lua script editing
