

# Open-source programování

## FastCGI pro CGIT

Daniel Milde

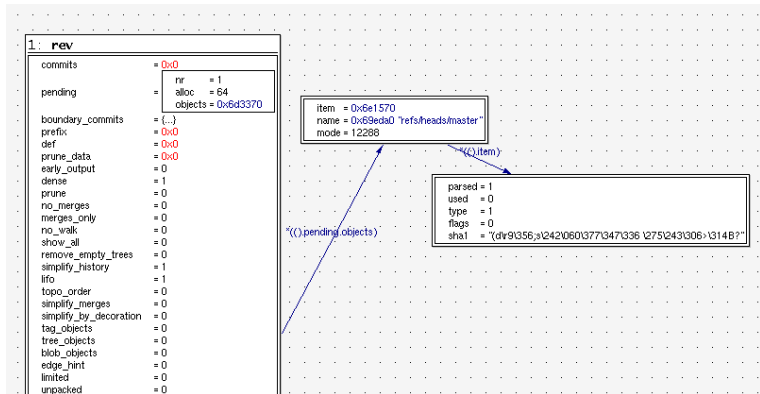

Fakulta elektrotechnická  
České vysoké učení technické v Praze

2010

Upravit CGIT, aby byl schopen běžet i jako FastCGI aplikace.

# Postup řešení

- Nasazení FastCGI kitu
- Desítky hodin debuggování s DDD

## Co se povedlo

- doplnit podporu FastCGI protokolu
- najít a opravit chybu v kódu projektu

## Co se nepovedlo

- zajistit korektní chování statické GIT "knihovny"
- odstranit memory leaky

- projekt má pouze repozitář
- veškerá komunikace přes e-mail

# Screenshot

The screenshot shows a web browser window with the address bar containing `http://localhost/cgi-bin/log2.cgi?log#log/`. The page title is "git index : mc" and the subtitle is "the master foo repository". There are navigation buttons for "master" and "switch", and a search box with the email "fooman@foobar.co".

The main content area has a navigation bar with "summary", "refs", "log" (selected), "tree", "commit", "diff", "stats", and "about". There is also a "log msg" dropdown and a search box.

Age	Commit message (Expand)	Author	Files	Lines
2010-02-18	Merge branch '2018_fpts_strcpy'	Andrew Borodin	1	-2/+3
2010-02-18	Ticket #2018: strcpy() is used for overlapping strings.	Andrew Borodin	1	-2/+3
2010-02-17	110n: Updates to Russian (ru) translation	Slava Zanko	1	-14/+7
