# esmska

Send SMS over the Internet

Jan Kalíšek

A4M35OSP

# My contribution
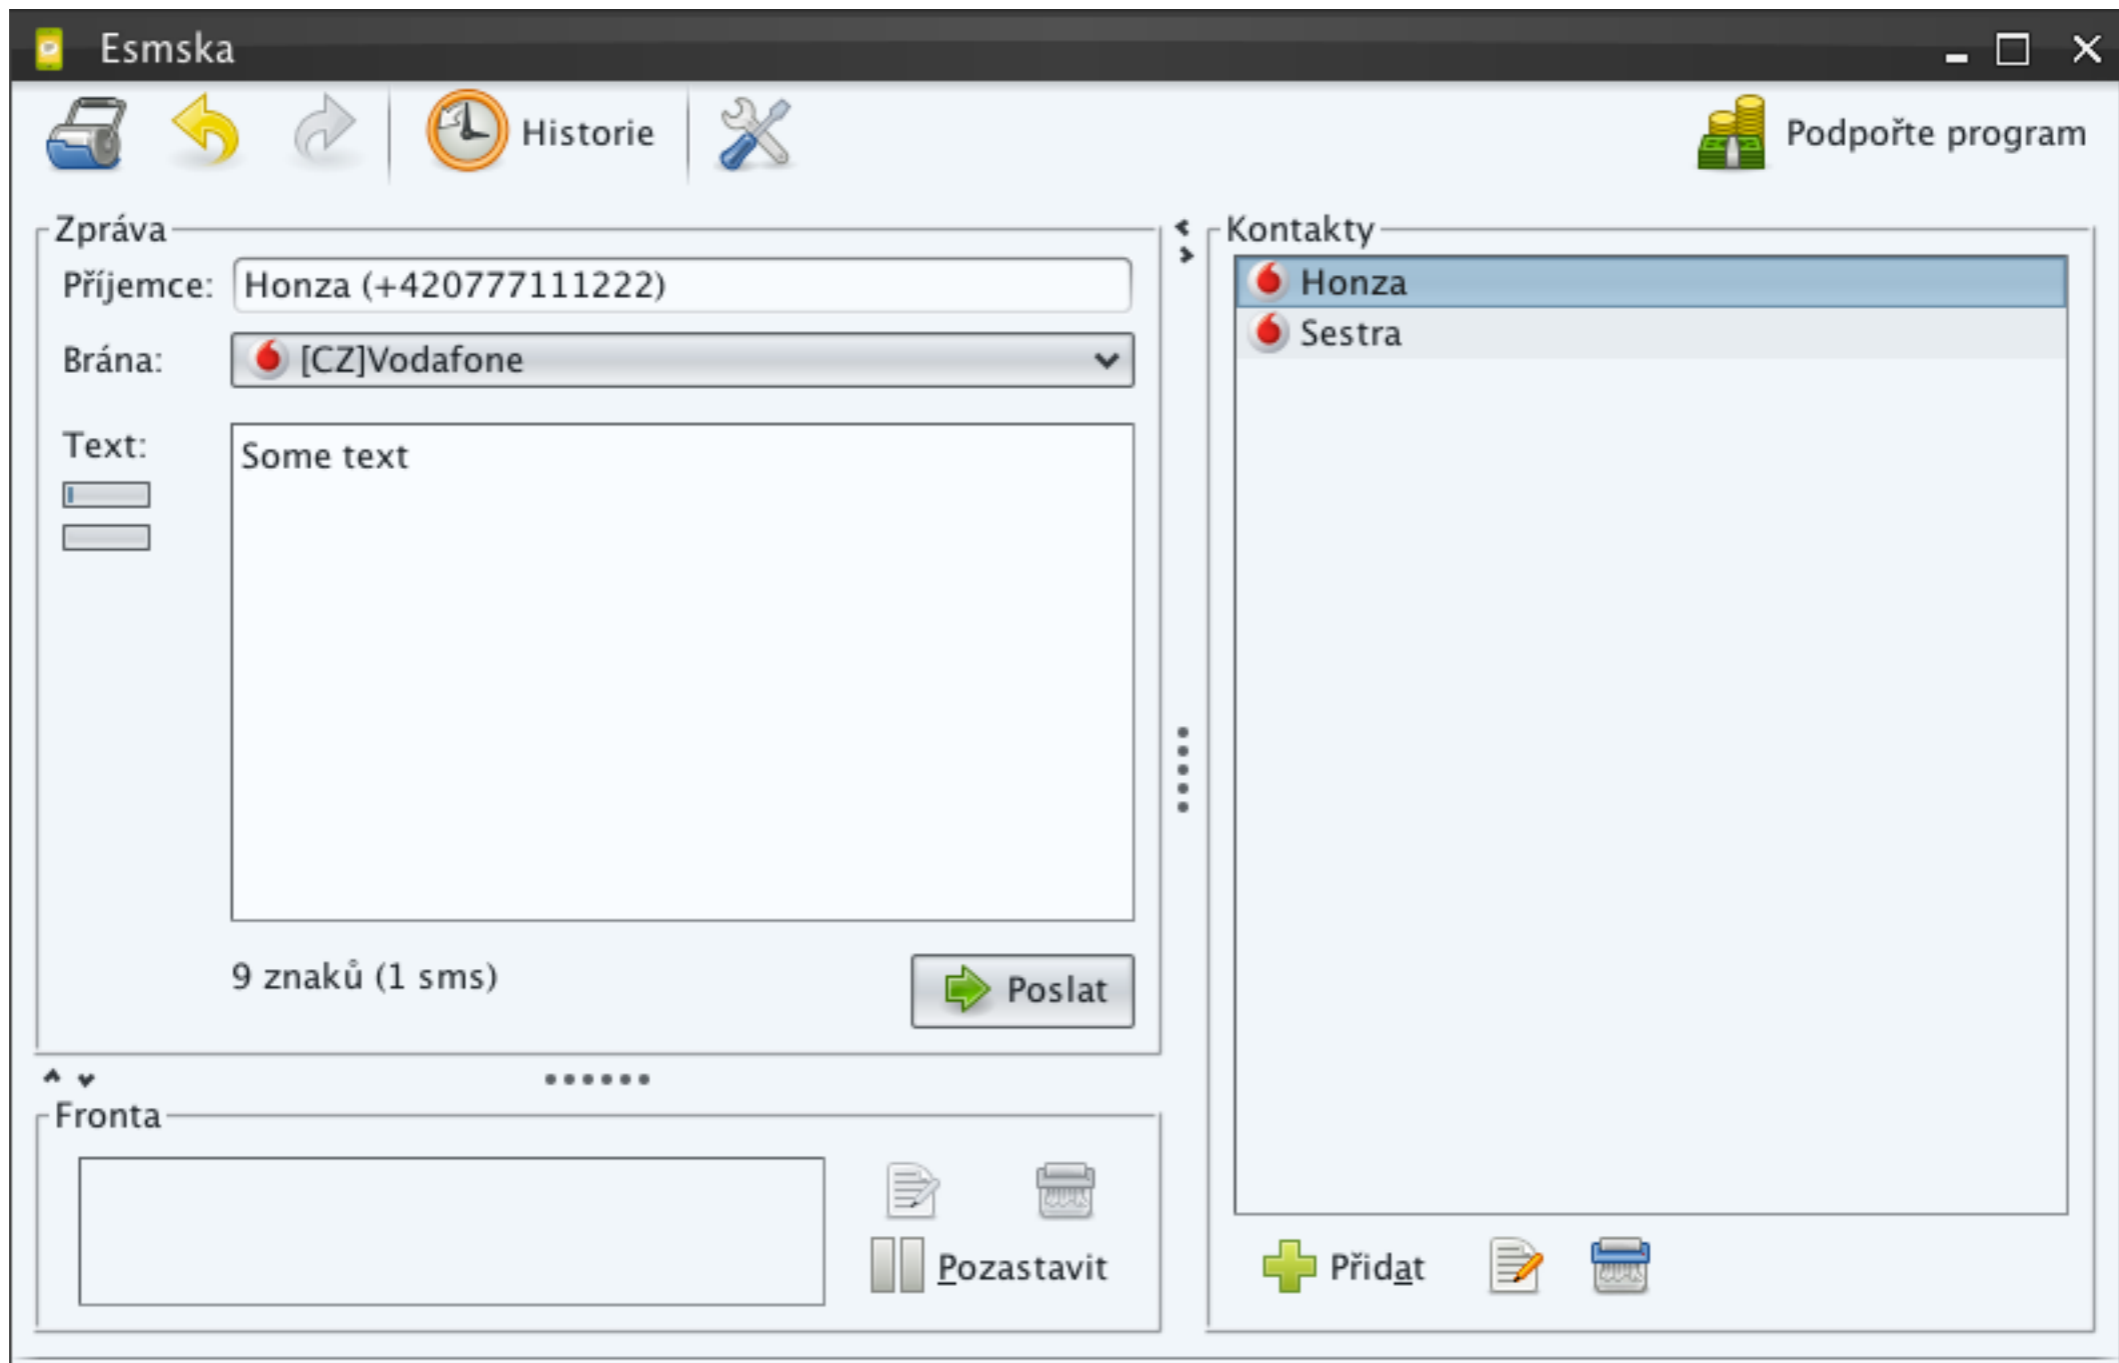

- display recipient in the form of "name (number)" instead of current "name"

- for example: Petr Novak (+420123456789)

# Technical description of my work

- changed displaying of recipientTextField

- changed lookupContact method

# Result

- my work wasn't accepted

- problem with forwarding messages from history

# Esmska

# Collaboration with developers

- only with owner

- communication in czech and in english language

- by email and github

- owner have not much time and so communication was slow

Thank you for your attention
