LibreOffice
The Document Foundation

Free Office Suite

Furtuna Andrei
A4M35OSP

The task

- Easy Hack

- Modified Frame Style Options Not Preserved, "Keep Ratio" Option Unavailable

- * keep aspect ratio is always grayed out

- * the "automatic size" option does not work properly

Environment

- Install build dependencies
- Clone the source code ()

My work

- Locate the error with help of $grep "frame"

- Tried to fix it

- Remarks

  - Long time for building

  - I should choose a smaller project

  - Many files to browse for
