Flot charts

- ◆ Attractive JavaScript plotting for jQuery
- ◆ Using canvas
- ◆ It's build on princip of core and plugins
- ◆ Thanks to excanvas.js flot charts support IE 6

Line style

◆ The goal of work was to implement other line style then solid.
◆ But I didn't do that, because of lost of support IE 6

Stack series

◆ I didn't do this also. I can split series on server side, and it's more easy, than do it on klient side.

My work

◆ My original goals was badly choosed, so i need to find new one.
◆ This plugin draw polygon inside chart and highlight points outside of polygon

Plugin

Result of my work

◆ Plugin wasn't uploaded to github. I uploaded it on project forum
