TuxGuitar

- add **mute/solo checkboxes** in the track navigation list

The screenshot shows the TuxGuitar interface. At the top, there are two musical staves with red measure numbers (146, 147, 148, 149, 150, 151). Below the staves is a track navigation list. A red arrow points to the 'S' and 'M' checkboxes for the 'Guitar I' track, which are circled in red. The track navigation list is a table with columns for track number, solo (S), mute (M), name, instrument, and a color-coded grid.
