This is box for editing notes...
Unfortunately it doesn't offer even simple context menu :(

My work

- To study code style and project structure
- To find appropriate text area
- To add context menu and implement text operations (copy, paste, cut)

Result

- Context menu was implemented
- My work is available in public repository (my own clone of project)
- My work isn't for now merged with main branch (status is waiting for review)
