About Wildfly

- Java application server
- Formerly known as JBoss AS
- Developed by Red Hat and contributors
- Open source under LGPL
- Written in Java
- Current version 8.2.0. Final

Development

- Codes on [GitHub](#)
- Issues on Jboss Developer JIRA
- Communication via JIRA or HipChat
- Active development
 - 226 contributors on GitHub
 - 1312 forks on GitHub

Goal of my work

- Implement feature request
- AS can not follow symbolic links
- This not working

`$wildflyHome/welcome-content/symlink/index.html`

`localhost:8080/symlink/index.html`

Thank you for your
attention
