TASK #60690

Remove and simplify code tagged by
`HORRIBLE_OBSOLETE_YELDMUTEX_IMPL`

Process

- Part 1:
 - Remove useless body of GtkYieldMutex methods
 - Add some error messages
- Part 2
 - Transform GtkHookedYieldMutex to GtkYieldMutex
- Part 3
 - Remove GtkYieldMutex and all calling

Summarizes

- My task was successfully done
- Code
 - 56 lines of code added
 - 268 lines of code removed

Experience

- Don't forget to ask
- Community of OSProgrammes is fine
- Communication is without problem
- Removing code is much more easy then add new

Thanks for your attention
