

NetBeans

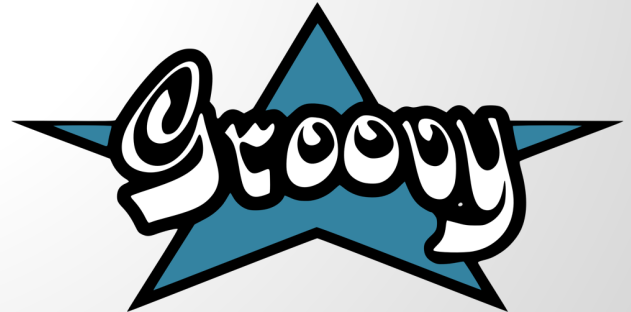

open source IDE

NetBeans

- IDE written in Java
- all major platforms
- 800 000 participating developers
- CDDL, GPL

C++

History

- started in Czech Republic in 1996
- original name Xelfi (first Java IDE)
- to Sun, to Oracle
- open source since 2000

Development

- Mercurial repository
 - wiki
 - mailing lists
 - issue tracking
 - lead developers responsible for modules
-
- ~ 2 releases / year

My contribution

- Latte now integrated into NetBeans
- I plan to add support for:

`{=expression}`

- now reports errors on valid templates

**Thank you for your
attention**
