Subject: JDownloader svn access

Dear Sir or Madam,
as a part of my university project, I'd like to contribute to the
JDownloader project and I'd like to try to fix some minor bug. For
example the Bug #6471.

According to 'Getting started as a JD-Developer' page, here's the data:

Username: Banshee

I've tried to browse the existing users and I believe this username
should be available.

Allowance to relicense your commits:

Herby I allow AppWork GmbH, Schwabacher Stra=C3=9Fe 117, 90763 F=C3=BCrth, =
to
re-license my (as user 'Banshee') commits to the JDownloader Code
Server (svn.jdownloader.org). Re-licensing, in this case, means
modifying and distributing my changes under a new license.

Looking forward to hearing from you.

Yours faithfully,
Ondrej Zeman

Hi,

I've created a svn account for you

user: banshee
pass: a593f4fb53d691affbe6234c2837b307

In case you have questions, just write an email to
support@jdownloader.org or contact us in live-chat (irc, freenode, #jdteam)

Best regards
Jiaz

Hello,
I've succeeded and managed to get projects running in my IDE. I've also succeeded in resolving
ticket number #6471. It was rather easy fix, but still, ticket solved :)
I'm sending changed class file as an attachment along with diff file.

Hope everything will be allright.

Yours truly,
Ondrej
