The comment text reads: "I am not sure if this is the same issue, but I am using Mac OS X, and my folder sidebar scrolls very slowly/teasy. My computer is only 1 year old, and the folder sidebar had no problems scrolling in Thunderbird 2. I have tried upgrading to thunderbird 3.1 beta 2, and this has done nothing to help. the message list doesn't seem to have a problem scrolling smoothly."
- Form:** A "Additional Comments" section with a "Comment" tab selected, a text area, and a "Save Changes" button.
