# What I planned to do?

- To make simultaneous cloning of multiple vehicles possible.
- Only one vehicle could have been cloned at a time.
- And that is annoying.
- To program something in C++

# What did I do?

- That.

BEFORE:

AFTER:

# What did I learn?

- Localization makes release process slow.
- Central repository is not for regular people.
- Documentation is poor as usual.
- A bit of C++.

Thanks for your attention
