PROJECT ORGANIZATION

- student Adam Iser released “Adium 1.0” in 2001 - AIM.
- Adium team rewrite code using libpurple in 2007.
- Several developers and contributors.
- Mercurial depository
- Version 1.5 just in few days.

XTRAS

- File transfer through P2P is quite unreliable.

XTRAS

- File transfer through P2P is quite unreliable.

⇒ let's make use of Dropbox's feature.

- User wants to send a file or files:
 1. (Creates an archive of multiple files.)
 2. Insert the archive/file into Public folder.
 3. Send a link instead of the file.

Thank you for your attention.
